

CALL FOR PAPERS

IV. EAST-WEST COHESION

INTERNATIONAL SCIENTIFIC CONFERENCE

11th-12th November 2019

Dunaújváros, Hungary

1. Aim of the conference

The **Opening to the East Strategy**, which was unfolded in 2014 at the University of Dunaújváros, has contributed to the development and building of international cooperation based on the results of Danube region in East-West relations to strengthen the socio-economic cohesion.

Upon these thoughts, the **4th East-West Cohesion Conference** is willing to take a worthy step forward to strengthen the international cooperation between higher educational institutions, spread the modern forms of training, the development of scientific co-operation and to help the effective work of students and doctoral students.

The main topics of the conference: **The strengthening of the East-West Cohesion for the development of accessibility and connectivity of energy, transport and social networks.**

The duration of the conference is 2 days. During the first day, participants will be able to attend plenary lectures in connection with the main topics. On the first day afternoon and second day, the scientific work will continue simultaneously in sections.

Based on the preliminary resolution of the Scientific and Organizational Committee, and in connection with the themes of the conference, we would like to make an **Abstract volume** and to publish the submitted publications in a **Study volume**, as well, in accordance with the national standards of publishing. Also there are opportunities to publish in high quality Hungarian journals.

We expect the participation of the representatives of domestic and international partner institutions, who deal with scientific and educational activities in relation to the topics listed below.

2. Organizers of the Conference

Main organizer: University of Dunaújváros (<http://www.uniduna.hu>)
